You may fire off laser probes to determine the location of Zorph warships. You have a number of weapons at your disposal including quantum rays, antimatter missiles and, for desperate situations, doomsday torpedoes. Your ship is protected by shields against any attack, but you must be careful to maintain your energy supply. Any Zorphs in your sector will attack you and each attack will use up some of your reserve energy. If your energy is depleted, your shields fail and the next Zorph attack destroys you. You can replenish your energy reserve by returning to a friendly base. You can hop sectors using hyperspace, al-."They don't have anything here?" Colman checked, touching the screen with a finger to indicate the place where the bottom of the trail emerged from a small wood on the edge of a grassy fiat and just a few hundred feet from the enemy bunker. The grey man took out his thin sword of grey steel and pried."Well, come in, then," said Billy, "and play me a game of jack-straws, and you can tell us all about it.".He takes a step toward the door. The Intermediaries move to block his path. With an inarticulate screech, he ploughs through them, swatting them aside with the backs of his hands, kicking them out of his way with his heavy-booted feet. The Intermediaries break easily, and it occurs to me then that they are probably as disposable a commodity among the Sreen as tissue paper is among human beings. One Intermediary is left limping along after the captain. Through the clear pale skin of its back, I see that some vertebrae have been badly dislocated. The thing nevertheless succeeds in overtaking the captain and wrapping its appendages around his calf, bleating all the while, "No, no, you must abide by the edict, even as every other inferior species has, you must abide. . . ." The captain is having trouble disentangling himself, and so I go to him. Together, we tear the Intermediary loose. The captain flings it aside, and it bounces off the great portal, spins across the polished floor, lies crushed and unmoving.. When it does, this whole planet will bloom. Then we can step outside without wearing suits or carrying airberries.".Columbine bit her lip, furrowed her brow, and evidenced, in general, a sudden change of heart..Call him Smith. He was the president of a company that bore his name and which held more than a hundred patents in the scientific instrument field. He was sixty, a widower. His only daughter and her husband had been killed in a plane crash in 1978. He had a partner who handled the business operations now; Smith spent most of his time in his own lab. In the spring of 1990 he was working on an image-intensification device that was puzzling because it was too good. He had it on his bench now, aimed at a deep shadow box across the room; at the back of the box was a card ruled with black, green, red and blue lines. The only source of illumination was a single ten-watt bulb hung behind the shadow box; the light reflected from the card did not even register on his meter, and yet the image in the screen of his device was sharp and bright When he varied the inputs to the components in a certain way, the bright image vanished and was replaced by

shadows, like the ghost of another image. He had monitored every television channel, had shielded the device against radio frequencies, and the ghosts remained. Increasing the illumination did not make them clearer. They were vaguely rectilinear shapes without any coherent pattern. Occasionally a moving blur traveled slowly across them..
