Staggering wildly the wizard tried to turn, lost his footing on the crumbling edge, and plunged down into the dark, his scarlet cloak billowing up, the werelight round him like a falling star..hands, like a man's..And he was easy, he was still, he held fast, rock in rock and earth in earth in the fiery dark of the mountain..He shivered like a horse as he stood there, too tall for the herb-festooned rafters. He was very..Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode."..After a long time the young man said, "What else can I do?"..wondered, it being winter and all, and you being on the roads. But with that horse, I thought you..expression. For a moment I contemplated my own face -- what was this, three-dimensional..to my face. I walked away. Idiot! Idiot! droned in me at every step. Without a word or gesture he turned away again and left the room. As he walked slowly past..mere glimpse at the place told me that things had been happening there while I wasn't looking. It.."Oh, sir," she said, and he knew he had done wrong.."Where'll you go?" she said..He reached out towards Yaved, towards the ache, the suffering. As he came closer to it he felt a great strength flow into him from the west, as if Silence had taken him by the hand after all. Through that link he could send his own strength, the Mountain's strength, to help. I didn't tell him I wasn't coming back, he thought, his last words in Hardic, his last grief, for he was in the bones of the mountain now. He knew the arteries of fire, and the beat of the great heart. He knew what to do. It was in no tongue of man that he said, "Be quiet, be easy. There now, there. Hold fast. So, there. We can be easy."..accustomed to the dark, was able to discern, from it, the huge outlines of the surrounding..not so far as she, for he was lame..She sat down.."Got you," the old man said, looking down at the muddy, lax body. He added, "Too late," regretfully. He stooped to see if he could pick him up or drag him, and felt the faint warmth of life. "You're tough," he said. "Here, wake up. Come on. Otter, wake up."..The next level was done in dark bronze veined with gold exclamation points. Fluid joinings of..he could tell her. He knew what she wanted to know and little by little he told it to her, and..Hound came in on her heels. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hmn. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one stragglng after the other like the dogs that lost the dogfight. Now, do you like the news I bring you?".."If I was with you, I could use it."..For a long time nobody would touch him. He had fallen down in a fit in San's doorway. He lay there now like a dead man. But the curer from the south said he wasn't dead, and was as dangerous as an adder. San told how Otak had put a curse on Sunbright and said some awful words that made him get smaller and smaller and wail like a stick in the fire, and then all in a moment he was back in himself again, but sick as a dog, as who could blame him, and all the while there was this light around the other one, Otak, like a wavering fire, and shadows jumping, and his voice not like any human voice. A terrible thing..The great guilds, since their network covers all the Inner Lands, answer to no overlord or..now what it once was- if we had more people of the true art gathered here, teaching and learning.."Interesting," she said..Roke as a strong centralising, normalising, pacific element in Archipelagan society, the archmages..below them. "I'll go in, try to keep things from sliding around, eh? I'll find out when I'm doing."I'll get the water," Tern said. He took the basin and went out to the courtyard, to the well. Just as before, Crow was sitting on the coping, bored and restless..father said, "Diamond," diamond being in his estimation the one thing more precious than gold..must not feel shame. The fault was his, and mine."..High Marsh..with his ideas, he had no thought beyond them. He was not aware of Otter at all except as a part..East Fields," the young

man said.. "I'll keep the door," Medra said. "Being lame, I won't go far from it. Being old, I'll know what. A man came up the mountain to Woodedge, a charcoal burner from Finn. "My wife Nesty sends a. Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them.
