For the first time in twenty years she felt lonely and truly far from Earth. As a young girl growing up during the rise of the New Order in the recovery period after the Lean Years, she had escaped the harsh realities of twenty-first century politics and militarism by immersing herself in readings and fantasies about America in the late Colonial era. Perhaps as a reflection of her own high-born station in life, she had daydreamed herself into roles of newly arrived English ladies in the rich plantations of Virginia and the Carolinas, with carriages and servants, columned mansions, and wardrobes of dresses for the weekend balls held among the fashionable elite. The fantasies had never quite faded, and that was probably why, later, she had found a natural partner in Howard, who in turn had identified her with his own ideals and beliefs. In her private thoughts in the years that had passed since, she often wondered if perhaps she had seen the Mission to Chiron as a potential realization of long-forgotten girlhood dreams that could never have come true on Earth..Lesley and the major obviously knew each other. Vehicles were landing and taking off continually in the depot area while ammunition boxes were hastily unloaded from ground trucks; the barracks area seemed to be alive with squads doubling this way and that, and officers shouting orders. "The best thing would be to blow that door with a salvo of AP missiles before we move, and hope they jam it open," he murmured to Swley, who was lying next to him, examining the far bulkhead through an intensifier. "Then maybe drench the lock with incendiary and go in under smoke." In the yard next door, beyond the sagging picket fence, a white-robed figure thrashed in the gloaming, as it was after 0400 hours, local, when Colman returned to the room which he shared with Hanlon in the Omar Bradley Block, which in the system of twenty-four Chironian "long hours" day was about as miserable a time of day as it was on Earth. With the room to himself since Hanlon was on night duty, he crawled gratefully between the sheets without bothering to shower to make what he could of the opportunity to sleep undisturbed until his call at 0530.. "I suppose you've heard the latest news of those soldiers who escaped from the barracks at Canaveral," Merrick said.. The colonization of Chiron was over.. What do you need collective strength for? Because strength ultimately gets to control the wealth and to impose ideas. But why does a race of millionaires need leaden if it already has all the material wealth it needs, and isn't interested in imposing ideas on anyone because nobody ever taught it to? The Chironians don't. There isn't anything to scare them with. You won't start any crusades down there because they won't take any notice." "I guess we buy our own drinks," Hanlon said, draining the last of his beer and setting his glass down on the table. "Looks like it," Stanislaw agreed.. seriousness? if that's what it takes to get the pie? that my mother isn't a danger to me. I've lived with her. Juanita saw the expressions on Bernard's and Jay's faces. "Are you claiming that we're any more violent or barbaric than your societies? We've never had a war. We've never dropped bombs on houses full of people who had nothing to do with the argument. We've never burned, maimed, blinded, and blown arms and legs off of people who just wanted to live their lives and who never harmed anybody. We've never shot anyone who didn't ask for it. Can you say the same? Okay, so the system's not perfect. Is yours?" Swley was looking distant and thoughtful behind the thick spectacles that turned his eyes into poached eggs and made the thought of his being specially tested for exceptional visual abilities incongruous. He was wondering how useful Stanislaw's nefarious skills might be for inserting a few plus-points into his own record in the Military's administrative computer, but couldn't really say anything about the idea in Sirocco's presence. There was such a thing as being too presumptuous. He would talk to Stanislaw privately, he decided.. Her thin cold plaints melted into a moan of abject misery, and the moan quickly. A currency was introduced and declared the only recognized form of tender. All goods brought into Phoenix were subjected to a customs tariff equal to the difference between their purchase cost and the prevailing price of Terran equivalents plus an import surcharge, which meant that what anybody saved in Franklin they paid to the government on the way home. Terran manufacturers thus lost the advantage of free Chironian materials but gained a captive market, which they needed desperately since their wares hadn't been selling well; and the market could be expected to grow substantially when the whole of Franklin came to be annexed, which required no great perspicacity to see had to be not very much further down Kalens's list of things to bring about. The Terran contractors and professionals were less fortunate and raised a howl of protest as Chironians continued cheerfully to fix showers, teach classes, and polish teeth for nothing, and an additional bill had to be rushed through making it illegal for anyone to give his services away. In response to this absurdity the skeptical Terran public became cynical and proceeded to deluge the courts, already brought to their knees by Chironians queuing up in grinning lines of hundreds to be arrested, with a flood of lawsuits against anyone who gave anyone a helping hand with anything, and a group of lawyers' wives staged their own protest by drawing up a list of fees for conjugal favors.. "Life! Earth life. You're a part of it. Isn't that an exciting feeling? It has to be." Before Bernard could reply. Jay came back in carrying the landscape painting he had brought back from Franklin after his first expedition out exploring. He propped it on one end of the table and held it up so that everyone could see it. "Do you notice anything unusual about that?" he asked them.. The dog whines with hunger.. The young, sophisticated wife that Howard Kalens had taken with him to Luna to join the Mayflower H was now in her early forties, but her face had acquired character and maturity along with the womanly look that had evolved from girlish prettiness, and her body had filled out to a voluptuousness that had lost none of its femininity. Colman felt the floor vibrate as heavy footfalls approached the booth. He quietly uncrossed his feet beneath the table and shifted his weight to be poised for instant movement.
